ANKIT KASHYAP

Detail-oriented Full-Stack Developer with a strong foundation in Python and JavaScript, complemented by a passion for AI and web development. Adept at building dynamic web applications using Django and React.js, with a focus on user-centered design and data-driven solutions. Eager to leverage technical skills and problem-solving abilities to contribute to innovative projects in a collaborative environment.

PROJECTS

Entrepreneur Assistant Application
Developed an AI-powered Django web app that predicts required business licenses in India using LLMs and fuzzy matching.
Implemented feedback-based self-learning features to enhance user experience.

Music App
Created a full-stack music streaming application utilizing React for the frontend and Django for the backend.
Focused on user authentication and dynamic content delivery.

CS50 SQL Final Project
Designed a license recommendation database to assist Indian entrepreneurs, including ER diagrams and SQL queries.

eBay-like E-Commerce Auction Site
Developed a Django-based platform allowing users to create listings, bid, comment, and manage watchlists.

Social Media Platform (Threads/X Clone)
Built a social media platform with features such as post creation, liking, following, and pagination using Django and JavaScript.

Single Page Email Client
Created a front-end project using JavaScript to interact with a Django-powered API, featuring inbox management and email status updates.

JavaScript TODO App
Built a dynamic task management application using HTML, CSS, and vanilla JavaScript.

EDUCATION

Bachelor's in Technology
Excel Engineering College, Tamil Nadu, India.
Sep 2021 - Oct 2025
- Specialization in Information Technology

Relevant Coursework: Web Development, Database Management, Cybersecurity, Software Engineering

CERTIFICATION/SHORT COURSES

- CS50's Introduction to Computer Science
- CS50's Introduction to Cybersecurity
- CS50's Introduction to Databases with SQL
- CS50's Web Programming with Python and JavaScript
- CS50's Introduction to Programming with Python
- CS50's Computer Science for Business Professionals

LinkedIn : linkedin.com/in/ankit-kashyap-684ba5352

Skills

Programming Language
- Python
- JavaScript
- SQL
- HTML5
- CSS
- C
- Java

Web Development
- **Frontend:** React.js, Bootstrap, DOM Manipulation, Single Page Applications (SPA)
- **Backend:** Django (Models, Views, Forms, Templates, Admin), REST API
- **Templating & Markup:** Django Templates, Semantic HTML

Databases & Data Modeling:
- SQLite
- PostgreSQL
- SQL

Cybersecurity Awareness
- Cryptography fundamentals
- Network Security Concepts

Problem Solving & Algorithms:
- Algorithmic thinking
- structured programming

Tools & Platforms:
- Git & GitHub
- VS Code
- Postman
- Linux shell

Software Engineering Practices:
- Agile development
- clean code writing
- modular design
